

REMARKS

Claim 21 was amended to include the subject matter of claim 29 and now recites that the integrated fabric-thermoplastic part is inserted into a second mold which is injected with a thermoplastic material to form the outsole. The art does not disclose or suggest the use of one mold to form an integrated fabric-thermoplastic part, and then the use of another mold to form an outsole. At best, the art suggests the use of a single mold.

In keeping with the duty of candor, enclosed is Form PTO-1449 listing U.S. Patent No. 1,811,803, together with a copy of said reference, for consideration and entry into the file as well as the fee of \$180.00.

Wherefore, a favorable action is earnestly solicited.

Respectfully submitted,

KIRSCHSTEIN, OTTINGER, ISRAEL & SCHIFFMILLER, P.C.
